The usual reports from standing committees were read. An ordinance from the Street Committee, allowing the Richmond and Danville railroad to extend its track west from Twentysecond street to Twenty-sixth street and to connect the new track with the railroad track on Dock street, subject to the city police regulations and ordinances, was adopted. SUPERINTENDENT OF THE GAS-

The Clerk read the communication, as

"I would respectfully ask at your hands a reconsideration of my petition for an increase of salary. For about thirty-two years I have been connected with this department-for fifteen years as superintendent. All of the trusts committed to my charge I have en-deavored to the best of my ability to execute with fidelity and honesty, al-ways keeping in view the best interests of the city and not my own gain, as my present circumstances fully substantiate. The splendid results accomplished, as shown by my annual reports, have not been surpassed by any works of similar magnitude in thi country, and I think this should receive some consideration and reward. My present salary is only \$1,600 per annum, which is exceedingly small in comparison with like officials within the range of my extended knowledge. My foreman receives \$1,800-\$180

DETECTIVE WREN'S BILL. On motion of Mr. Curtis the rules were suspended, and Mr. Charles V. Meredith, the acting attorney for the Commonwealth in the Cluverius case was invited to address the Council on he question of the pay claimed by De tective John Wren in the case al-

luded to. Before addressing the Council Mr Meredith handed the Council the following paper, which Clerk August

As citizens of Richmond, interested in the reputation as well as the property of the city, we ask leave to to you our views as to the bill present ed by Mr. John Wren for services rendered in the Cluverius case. It cannot be doubted that Mr. Meredith did right in getting the services of a detective when he undertook the case: nor can'it be a matter of much doubt that had he improdently waited until the Council met and asked permission to employ Mr. Wrei that he would have gotten your con

sent. As citizens of the city in which the crime was committed, we are glad that he did not lose that time, but em ployed Mr. Wren under the conditions that he did. We have every reason to believe that Mr. Wren rendered faithful and efficient services. If such be the facts surrounding his employment. and if such be the facts as to his performance of his employment, there can be no reason why his bill should not

be paid, unless it be too large. We have no fair reason to think that it is excessive. We are informed that his charges are below the regular schedule of prices, which he showed Mr. Meredith about the time he was employed. Such being the case we ask that no objection be made to the bill, and that the Council order it to be

The regular monthly meeting of the Common Council was held yesterday afternoon at 5 o'clock. Mr. J. Taylor Ellyson (president) took the chair and the following mentions of the council was held yesterday afternoon at 5 o'clock. Mr. J. Taylor Ellyson (president) took the chair and the following mentions are seen as a saddling a debt upon the city. He Ellyson (president) took the chair and the following members answered to their names: Messrs. Ammons, Archer, Bahen, Bryan, Cabell, Curtis, Cutchins, Griffith, Guy, Hargrove, Hughes, Jones, King, Lewis, Parater, Pearman, Phillies, Parater, Pearman, himself. The papers at the time himself. The papers at the time he took hold of the case teemed with talk about the crime, and the community was in excitement over it. De-tective Wren was authorized by the Mayor to act in the matter, being told, however, by the Mayor that he could not tell him where he could get his

pay. Mr. Meredith said he went into this case within thirty-six hours after he was asked to take hold of it, finding opposed to him four of the ablest law-

yers of the State.

Mr. Meredith said that an ex-Judge and ex-councilman had said in the papers that the State should pay the claim. He respectfully submitted that when a lawyer went into the papers to instruct the public that he should con-sult his law-books. The State did not pay these claims. Two Governors had refused to pay similar claims-one of them the present Governor. The county of Henrico paid her officers in a case of great crime additional sums.

Mr. Meredith said he asked nothing for himself; if ouered, he would re-fuse it; but he did ask that this bill of Wren's be paid. It was a reasonable bill, and a debt owed by the city, and not by the State. The city charter pro-vided that the Council should suppress vice and prevent crime, and this gave ample authority to pay the bill. Wren showed him his charges, and he told him that he had nothing to do with the charges, but to go on, that the Council would settle with him; and he knew that Wren had put his price lower than

the printed charges on his list of prices.

Mr. Meredith explained the nature and he characterized them as being faithful and effective in the case referred to. The detective had provided witnesses that could not otherwise have been obtained, and these witnesses had stood the test in court as well as could be. More than that, Wren had traced to an end hundreds of false rumors. Besides, it was necessary to watch the defence's witnesses, and this was also done by Wren. Whenever it was possible, Wren advised the employment of policemen, and thus showed his honesty of intention towards the city. The city had received the benefit of the service, and he did not believe the Council would refuse to pay for it. He said he not only believed that the city had the right to pay the bill, but that it was the city's duty to pay it. He said that Mr. Wren had heard that some complaint had been made as to the price charged for his assistant. If necessary he would reduce that to \$5

tee on new City Hall was read, as heretofore reported in the proceedings of the Board of Aldermen, together with the resolution adopting the plan of Messrs. Wait, Cutter & Co., architects, of Boston, and authorizing the advertisement for bids for building the hall. Mr. Rankin asked if the building was to be built of granite.

The Chair said he thought that was the intention of the Council. Mr. Frischkorn said the committee

was united on this subject, and the resolution heretofore adopted said of · Virginia or other granite." It was not policy to say to one or two companies here that might pool against the city that we intend to use no other granite but theirs. There was considerable discussion

about the granite and the relative merits of Wait, Cutter & Co.'s plan, and the second choice, that of Mr. B. J. Black, of Richmond. Mr. Pizzini explained the labor of the committee, and asked the concurrence of the Council in the action of the Board, saying that any further legislation could be given in the shape of di-

THE BRITISH BONDHOLDERS. Mr. Royall Returned from England-What

Mr. William L. Royall, counsel for the foreign bondholders, has just re-turned here from England. In answer to inquiries from a Dispatch representative as to the success of his mission he yesterday evening said: I had several very satisfactory inter-

views with the Virginia Committee of the Council of Foreign Bondholders, and I also met the individual holders of the bonds in separate interviews. I do not feel at liberty to say anything more than this: That, to a man, they are unalterably opposed to making any proposition of compromise to the State. If any adjustment is ever effected, the move towards it must come from the State. The creditors have a deep feeling of resentment at the treatment they have received. They say they have had two settlements with the State, in each of which they greatly reduced their just claims, and the only return they have received is utter denial of their upon pickpockets. I believe that if the fatal policy that has been adhered to of war upon the bondholders was changed into a pacific policy of con-ciliation and friendly negotiation that some adjustment could be arrived at. But so long as the authorities o the State maintain their present atti-tude of defiance and pillage the State will get deeper and deeper into the The State's creditors are demire. termined to test to its final conclusion the question whether the institutions of this government are equal to sustaining themselves. Benjamin H. Nash for Attorney-General was adopted by a unanimous vote. Major Nash is popular in the county, and the Democrats remember the effective service which he rendered the party in 1883 and 1884. The delegates came for work and for organization, and well did they perform

their duty. The county is now ready

A Bezant for Aged Women's Homes. A committee from the different denominations of the city have held
several meetings to arrange a pian for
raising funds for the benefit of their
homes for aged women and the Male
Orphan Asylum. It has been decided
to hold a bazaar some time in November, in which they hope to receive the cooperation of every one who is interested in these objects. A committee has been appointed to ask the Germans and Hebrews to unite with them, and they would be glad to receive assistance from all who feel an interest in this work. The funds are to be equally divided among the denomina-tions who are supporting such homes and the Male Orphan Asylum. Tuesday Moonlights.

The next one of these popular trips of the steamer Ariel occurs to-night. They are largely attended every Tuesday night, and everybody seems de-lighted with them. Many enjoy the amateur concerts to the accompaniment of the Fischer grand piano; others, in another part of the steamer, devote themselves to the mazes of the waltz under the inspiring strains of Voelker's Band, while still others "seek the seclusion which the cabin grants"; and yet again the more practical seem absorbed in the discussion of fresh fish, crabs, and refreshments of all kinds. Truly they are evenings of real enjoy-ment, and we hope the company will give two a week instead of one. would the "Tuesday and Saturday" moonlights do? What says the com-

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colleking, and teething stege. Mrs. WINSLOW'S SOOTHING SYRUP relieves the child from pain, and cures dysentery and diarrhora. It softens the gums, reduces inharmmation, cures wind colle, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Soid by all druggists. Twenty-five cents a bottle.
